RE: CONFIRMATION OF RECEIPT OF FAXED MITIGATION PLAN

This letter is in response to your request for verification of receipt of your faxed mitigation plan. We have received several mitigation plans and expect to receive more. Tim advised me that he had no opinion at this time and would prefer to review this with the other plans.

Thank You,

Crystal Calais

Tim,

Here is our plan for mitigation. After talking with water master Bob Duke we don't feel we should be subjected to mitigation as we have a senior water right to the one being called for and our senior water right is not being delivered due to drought conditions with no water in the Big Lost River and our point of diversion out of Parsons Creek. Let me know your opinion of this and also send me verification that you received this note and our plan for mitigation.

Thank you,
Churndasher Ranch

Plan for mitigation:

Tim,

In response to your letter dated May 13, 2004 R.E. mitigation for ground water use pursuant to IDAPA 37.03.12.050 I am submitting the following plan for our portion of mitigation our ground water right 34-07057 Victor Johnson, Scott Johnson, Churndasher Ranch priority date 1/10/74 period of use 4-15-10-15 maximum quantity 4.74 CFS. Due to modification and upgrading of our irrigation system we are only using a portion of our total ground water right. We are licensed for 4.74 CFS and we are only using approximately 650 GPM or 1.44 CFS. There is approximately 3.30 CFS that we are not pumping or taking out of the aquifer. Therefore we feel this amount not being used should be sufficient for our share required for mitigation.
